The screenshot shows the Chrome DevTools Console with the 'Console' tab selected. The console displays the results of a `.map()` and `.filter()` operation on an array of objects. The `.map()` result is an array of 10 `false` values. The `.filter()` result is an array of 4 objects, each with a `squirrel` property set to `true`. The console interface includes a filter input, a 'No Issues' button, and a '2 hidden' indicator.

```
_.map(x => x.squirrel) => inspector.js:33  
false,false,false,false,false,false,false,fal  
se,false...  
_.filter(x => x.squirrel == inspector.js:33  
... => Entry: 4 events X,Entry: 3 events  
X,Entry: 4 events X...
```
